Massachusetts Department of Public Health
Arbovirus Surveillance Program Report
Report Date: June 18, 2012

Key Public Risk Communication Messages for This Week:

Establish good habits now:

- **Repair screens**
- **Remove standing water to help reduce mosquito populations**
- **Teach children to be aware of mosquito activity around them and avoid it**
- **Check www.mass.gov/dph/wnv for latest WNV and EEE information during the season**
