2. Topsfield Data

What surprises you most about this data?

Comments

Only 1100 commute out

Total employed only 1372 (1042 + 52+ 227)

That affordable is not the stigma most people believe. It's our parents + children + maybe us

Surprised to learn more people commute into than out of Topsfield.

The median income surprises me. I'm surprised at where the divide lies - thought it would be higher.

Not many surprises as the Main Street Program learned a lot. Didn't consider housing at the time.

From 2000-2017 residents 55+ increased by 62%

Condos are so expensive! We need more affordable options for working professionals that don't want to maintain a single-family house/yard.

The number of young professionals so dwindling! My college grad kids wouldn't return to live until there is more of a downtown VIBE.

Could use an affordable means to allow families to stay together. Consider relaxing zoning to create more 2 family homes.

AMAZING data! Well-done! We need to plan for AGING population AND keeping 22-34 here!

Age 0-19 year old demographic has declined in the past few years. How are class sizes growing?

Explaining affordable vs low income. Great idea.

Nothing surprises me

It doesn't really surprise me - but [xx] don't have affordable housing to downsize.

Surprised so very people work out of town

Very surprised by the # of commutes into Topsfield. I assumed all commuters went out of Topsfield (+1)*

Why do you think it is important?

Please note that there was opportunity to answer to this question more than once

Comments

Why did we not hear about this until the past month. Shame on the Selectmen.

Maintain small town character (+1)

Balance - meet the needs of older residents while updating and attracting younger families to the community

Balance of focus on older residents + younger families

Keeping the character of the town while actually being a modern + need serving town

Community spaces

Maintain rural character of the town!!

Elementary classes are growing but population by age graph shows a decline in children

How can improvements be made without water + sewer. How can Topsfield pay for more water + sewer?

Downtown needs to stay a safe place for kids (+1)

Hood Pond should be taken over by town management

Possibly add summer camps + pool (like Hamilton)

No commercial development of Emerson Field

Small affordable housing units ok

School public/private enrollment + size of class vs demographics of age

Denser housing downtown + Route 1

Town support at many levels, businesses involvement

Financing with growing senior population, what might it do to taxes?

Businesses can help ease homeowners! Tax burdens.

Keeping it a small-town atmosphere -- without features that will increase taxes. Topsfield population does not robustly support our retail until it was very specialized

^{*(+1)} means that another person indicated on the comment that they "liked" the comment

Additional comments by category

Food Trucks
Different + rotating food trucks
Vegetarian/vegan food
Healthy food turcks smoothies, juice drinks, bowls
Food trucks on a schedule (maybe 1x a month) so people can plan ahead. This is a
work around of not having a central restaurant to gather etc.
Maybe during outdoor performance, concerts, etc (+1)
Maybe 1 day/week for food trucks. Essex County Co-op doing on Tuesdays "sacred
cod". Co-op is a great resource that is close to the rail trail.

Why do I have to go to Beverly for good Indian food?

Wayfinding Signage

Need signs directing to parking and downtown from Route 1 + 97

What other uses would you want to see in public spaces in Topsfield such as around the Commons and Town Hall?

Please note that there was opportunity to answer to this question more than once

Comments
Repair town hall clock
Make accommodations (via complete streets) to make the Main St more pedestrian oriented by
adding crosswalks and bike lanes
Need to consider waste disposal for public gathering, we need spots
Dog waste bag dispensers and receptacles
Please - much more classy, uniform signs!
Seating + tables
Meeting spaces for clubs/businesses
Wide sidewalks, make less vehicle friendly
Outdoor sculptures/art installations
Bike park near rail trail/proctor
Dog park
More restrictions on types of signs make them better looking
Not more signs but uniform, nicer signs (+2)
More outdoor seating for residents (walking, resting, meeting w/friends) (+1)
Art!!! (+1)
Bigger and more flower baskets in the commons and along the sidewalk
Fix town hall clock
Art - decorated poles for holidays

5. Parking

ICCLIAC !		bservation	c
1990E9/	v	uscivation	9

Regulations/Parking Shortfalls	
- 11: 1 - 1 - 1	More disability parking
 Public parking lot on School Street gets full Proctor Elementary School needs more parking Employees fill spaces on Main Street 	 More disability parking Consider time restrictions on Main Street, but not too short because dining / spa services take longer than an hour Many participants felt it was fairly easy to find a space most days
Wayfinding & Signage	,
No sign directing to public parking on School Street	 More signs pointing to public parking (but not signage everywhere) Help people find parking by rail trail
Walkability	11 1 1 0 /
 No sidewalk leading to public parking lot on School Street Drivers ignore pedestrians 	 Connect shopping center to rail trail Add more lighting for pedestrians Walkability generally good in downtown
Enforcement/Operations	
 Drivers block driveway to Post Office Bad sight lines along Main Street at School Street, Grove Street, and Central Street 	 Enforce traffic operations at the Post Office Install a mailbox to alleviate congestion around Post Office Traffic pattern around the Commons is confusing School Street is not a through way – it is Fire access
Potential Development/Vacancies	
	 More parking located behind buildings rather than in front More retail down near the public lot on School Street
Shared Parking	
Lack of public access to Topsfield Shopping Center lot makes it difficult to find parking	 Share parking in Shopping Center for public use Fix potholes/general maintenance in Shopping Center parking lot
On-street Parking	
 Difficult to park on Main Street because employees park all day On-street parking on High Street would increase congestion Need for short-term spaces in front of businesses for pickup/drop-off 	 Add on-street parking to Central Street Consider metered parking and reinvesting revenues locally

Water, sewer, before additional development
Buy topsfield
Don't get too ambitious- retail is dead.
Please include in your recommendation a goal to keep Topsfield
streets & sidewalks free of trash & litter
I hope we are able to have action
None, I like the town as it is
More trees planted in more Main St. Spots

	this was great		
	It's nice to see a cross section of the population (old and young) coming together to meet the needs of the community		
	Great to see so much interest across many ages		
I learned more about it, so I was more excited to help.			
	Nicer plants and roads		
	We have to consider Rt.1 & development too.		
	Seems like it might actually happen		
	Thank you!		
	Parking???		
	Somewhere to put what is most important to us like "maintain rural character"		
	Brew pub along rail trail w/ outdoor seating, games theater space - local theater group.		
	Do it again!		
	I have always been interested in the revitalization of Topsfield		
	downtown as a resident of the town		

Loved it! As someone who has tried to do this before (and a townie)

Cause I didn't know anything about it before the event

It might have been good to have more chairs to sit and have meaningful conversations surrounded by a topic

I presume it's all about getting business here w/ tax incentives + LL funding.

Think outside the box, creative solutions. Not the same old same old.

Loved the brief intro of MAPC info, followed by the easel/ sticky note

Would have liked to see timeline for planning + target milestones.

It feels like something may happen - I hope things can change.

It's nice to see how excited the whole community is! (I was already excited)

Bigger space (although there is no way to predict)
