

MEMORANDUM

TO: INSPECTIONAL SERVICES DEPARTMENT

FROM: HEIDI GAFFNEY, ADMINISTRATOR, TOPSFIELD CONSERVATION COMMISSION

SUBJECT: 97 MAIN STREET – APPROX. BYLAW INTERMITTENT STREAM SHOWN ON PLAN

DATE: JUNE 23, 2023

CC: TOPSFIELD CONSERVATION COMMISSION FILE

With regard to the “Approx. Intermittent Stream (Bylaw Jurisdictional Only) shown on the plan prepared by Williams & Sparages for 97 Main Street, the area shown is an approximated furthest potential extent as agreed to during a field review for soil testing and does not represent a confirmed jurisdictional resource area. During field review for proposed soil testing in March of 2022, a furthest possible extent of a potential Bylaw Intermittent Stream was agreed to in the field. No official delineation was required and none was submitted, reviewed or confirmed. Further, the intermittent stream/flow path was not identified as jurisdictional on the plans on file from when the septic was replaced in the front yard at 8 Howlett St in 2005.
